Application Considerations

Our UV-C Products are not meant to be used in applications or activities which may cause and/or lead to death, personal injury and/or damage to the environment.

This UV-C product is intended to be used for the disinfection of Indoor air.

This UV-C product is not approved and / or certified as a medical device.

The back cover must be closed properly before disinfection, otherwise the UV-C lamp won't work. There should be no light leakage at the air inlet on the side of the body. If there is, please check whether the filter is installed correctly.

Signify will not be responsible for any accidents/injuries caused by exposure to UV-C light.

Please contact manufacturer or its maintenance department and other similar professionals for repair. When the product is working normally, the UV-C irradiance at 200mm from the product is <1mW/m². If the power cord is damaged, it must be replaced with a dedicated cord or with a dedicated component purchased from its manufacturer or maintenance department.

UV-C Exposed luminaire parts (other than metal parts), like Lamp holder, end cap etc. might change color after a certain period of usage due to the UV-C light property.

UV-C light emitted from UV-C lamp is much "stronger" than normal sunlight and can cause a severe sunburn-like reaction to your skin, and similarly, could damage the retina of your eye, if exposed.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved children shall not play with the appliance, cleaning and user maintenance shall not be made by children without supervision.

In case of accidental breakage of the lamp tube, it should be ventilated for 30 minutes first. Please remove the debris with gloves, put it in a sealed plastic bag and take it to a local waste disposal site for safe disposal.

WARNING

This appliance contains a UV emitter. Do not stare at the light source.

UV-C RISK GROUP 3

WARNING UV-C emitted from this product (inside UV-C chamber).
Avoid eye and skin exposure to unshielded product.
Follow installation instructions and user manual.

Only use PHILIPS brand TUV lamp
TUV lamp type:
928002204019 TUV 11W
928002004019 TUV 16W
TUV lamp lifetime:9000h

Maintenance

- Don't put into water.
- Don't splash water on the filter.
- Don't put sundries into the air outlet.
- Don't use on the ground with water or under the wet environment.
- Power off during maintenance or cleaning.
- External: the body can be cleaned with a wet towel. Strong solvents or detergents are not recommended. But neutral mild cleaners are recommended, no residue after cleaning.
- Interior: clean the interior metal walls with ethanol (reagent grade) and soft towel. Be careful not to spray or apply chemicals directly on the UV-C lamp tube. This may damage the product.
- Please maintain in strict accordance with the above requirements.
- Recommend to clean every six months.
- Unintended use of the appliance or damage to the housing may result in the escape of dangerous UV-C radiation. UV-C radiation may, even in little doses, cause harm to the eyes and skin.
- Appliances that are obviously damaged must not be operated.
- Read the maintenance instructions before opening the appliance.

Filter/Lamp/other relevant parts replacement

-
- Ensure the filter is properly installed during maintenance or switch on, otherwise it will cause UV-C leakage.
 - Please Shut off the power supply and unplug product before changing the lamp or filter! Please ensure to put on gloves when installing the luminaire or replacing the lamp.
 - Only those who have received instruction training can replace the other relevant parts. Please contact Signify dealer or the designated after-sales service.
