

# UV-C disinfection air unit G2

### **UVCA210 G02**

4 pcs - 220 to 240 V - 50 to 60 Hz - Safety class II (II)

Philips UV-C air disinfection unit is a comprehensive solution to address airborne transmission of pathogens. It reduces airborne pathogens by greater than 99.99%. The UV-C unit is resistantly designed with extra supportive metal structure inside disinfection chamber. The aesthetic design delivers well-controlled UV-C radiation (RGO) and can also be used when people are present. The family comes in three disinfecting capacities, which is ideal for all the indoor professional applications.

#### Warnings and Safety

· Our UV-C Products are not meant to be used in applications or activities which may cause and/or lead to death, personal injury and/or damage to the environment. This UV-C product is intended to be used for the disinfection of indoor air. This UV-C product is not approved and/or certified as a medical device. The back cover must be closed properly before disinfection, otherwise the UVC lamp won't work. Product is designed to avoid any kind of UV-C leakage, in case there is a leakage due to product damage or similar incident, please stop using and report back to Signify sales representatives. Signify will not be responsible for any accidents/injuries caused by exposure to UV C light. Please contact manufacture or its maintenance department and other similar professionals for repair. When the product is working normally, the UV C radiation at 200 mm from the product is less than 1 mW/m. If the power cable is damaged, it must be replaced with a dedicated cable or with a dedicated component purchased from its manufacturer ormaintenance department.UV-C exposed luminaire parts (other than metal parts), like Lamp holder, end cap etc. might change colour after a certain period of usage due to the UV C light property.UV-C light emitted from UVC lamp is much 'stronger' than normal sunlight and can cause a severe sunburn like reaction to your skin, and similarly, could damage the retina of your eye, if exposed. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance. In case of accidental breakage of the lamp tube, it should be ventilated for 30 minutes first. Please remove the debris with gloves, put it in a sealed plastic bag and take it to a local waste disposal site for safe disposal.
